

## COLOUR &amp; EFFECTS

## AIR DRY

**FREE:**  
No Formaldehyde,  
Toluene or DBP

**WHAT IT IS**

A non-yellowing, fast-set 3-free top coat.

**WHAT IT DOES**

UV absorbent top coat that quickly seals and protects nail Colour.

**WHY YOU NEED IT**

- Surface sets quickly to protect nail Colour.
- UV absorbers prevent yellowing and guard against fading and discoloration.
- 3-free formula does not contain Formaldehyde, Toluene or Dibutyl Phthalate (DBP).

**FEATURED INGREDIENTS & BENEFITS****Nitrocellulose:**

Film former and product thickener used in nail treatments and Colour.

**Cellulose Acetate Butyrate:**

Highly stable form of natural polymer cellulose that is highly resistant to discoloration.

**Benzophenone-1:**

UV light absorber that prevents yellowing.

**PRODUCT FEATURE**

- CND Air Dry top coat is 3-free.
- Regulatory agencies in some areas have begun to restrict or ban the use of Formaldehyde, Toluene and Dibutyl Phthalate in cosmetic products.

**DIRECTIONS FOR USE**

- Turn bottle upside down and roll between palms of hands to blend.
- Start with one coat of CND base coat of your choice applied to clean, manicured nails.
- Apply two thin coats of CND Colour.
- Apply one thin coat of CND Effects (optional).
- Finish with one coat of CND Air Dry top coat.

CND offers comprehensive education opportunities. Check the education section of [cnd.com](http://cnd.com) for a course near you.

**CREATIVE SUGGESTIONS**

- Great for sealing nail art and adhering rhinestones.
- For soft nails, apply one coat at home between professional manicures.
