

COLOUR & EFFECTS

SUPER MATTE

FREE:
No Formaldehyde,
Toluene or DBP

WHAT IT IS

A protective matte-finish 3-free top coat.

WHAT IT DOES

- Transforms glossy nail Colour to a modern matte finish.
- Seals and protects nail Colour.
- Provides a protective single coat option without shine.

WHY YOU NEED IT

- Produces a durable, long-lasting matte finish.
- 3-free formula does not contain Formaldehyde, Toluene or Dibutyl Phthalate (DBP).

FEATURED INGREDIENTS & BENEFITS**Acetyl Tributyl Citrate:**

Plasticizer and carrier solvent used in nail Colour and nail treatments.

Nitrocellulose, Adipic Acid/Fumaric Acid/Phthalic Acid/Tricyclodecane Dimethanol Copolymer:

Film formers used in nail treatments and Colour.

Hydrated Silica:

Product thickener and stabilizer.

PRODUCT FEATURE

- CND Super Matte top coat is 3-free.
- Regulatory agencies in some areas have begun to restrict or ban the use of Formaldehyde, Toluene and Dibutyl Phthalate in cosmetic products.

DIRECTIONS FOR USE**With Colour:**

- Turn bottle upside down and roll between palms of hands to blend.
- Start with one coat of CND base coat of your choice applied to clean, manicured nails.
- Apply two thin coats of CND Colour.
- Apply one thin coat of CND Effects (optional).
- Finish with one coat of CND Super Matte top coat.

Without Colour:

- Turn bottle upside down and roll between palms to blend.
- Apply a thin coat of Super Matte top coat to clean, dry natural nails.

CND offers comprehensive education opportunities. Check the education section of cnd.com for a course near you.

**CREATIVE SUGGESTIONS**

- Subtle protective option for men.
- A shine-free alternative for nail art design.
